

Compliance Report: PFAS Disclosure Requirement

Date: 08/27/2024

To: Suppliers

Company: United Alloy Inc.

Subject: *Compliance Requirement for PFAS Disclosure in Materials*

Introduction

This report is issued to confirm the compliance requirements related to the presence of Per- and Polyfluoroalkyl Substances (PFAS) in materials supplied to United Alloy. PFAS are a group of synthetic chemicals used in various industrial and consumer applications. Due to their environmental and health risks, regulatory agencies have established guidelines and requirements for the disclosure of PFAS content.

Regulatory Background

PFAS have been identified as substances of concern due to their persistence in the environment and potential health impacts. Regulatory agencies, including the Environmental Protection Agency (EPA) and similar bodies in other jurisdictions, have implemented regulations mandating the disclosure of PFAS in materials and products.

Requirement for Disclosure

In compliance with these regulations, United Alloy requires all suppliers to provide detailed information regarding the presence of PFAS in the materials they supply. Specifically, suppliers must:

Disclose PFAS Content: Inform United Alloy of any PFAS used in the materials or products supplied. This includes any PFAS present in the raw materials, additives, or finished products.

Provide Safety Data Sheets (SDS): Submit updated SDS that include information about PFAS content. The SDS should reflect the most recent data regarding chemical composition.

Compliance Certification: Complete and submit a certification if materials supplied to UA do contain PFAS. See Compliance Certification Form.

Action Required

To ensure compliance with these requirements, please:

Review and verify the composition of all materials supplied to United Alloy.

Prepare and submit a report detailing any PFAS content as per the above requirements.

Ensure that all future deliveries are accompanied by the required disclosure documentation.

Submission Deadline

Please submit only if PFA's exist in UA's supply. The requested information and documentation to be forwarded for UA review by **September 6th, 2024, by EOD**. Failure to comply may result in a review of your supplier status with United Alloy.

Ensuring transparency regarding PFAS content is crucial for maintaining environmental and public health standards. We appreciate your cooperation in providing the necessary information and supporting our commitment to regulatory compliance.

Contact Information & Supplier Agreement

This document acknowledges receipt of this report and agree to comply with the PFAS disclosure requirements set forth herein.

Sincerely,
